Description

## What makes it special

The individual pots are easy to install, replace, and remove and with this pack it is even **easier as plants come potted in pots**; just choose a right spot and create your own vertical garden.

Living green walls are a surefire way to enhance your home visuals, improve air quality. An emerging trend in gardening, these living wall of green are springing to life across the world on the interior of the home, in hotel lobbies, office reception areas or any location that receives indirect bright light.

Greenery not only adds to the aesthetic sense of the place but also help in making the space eco-friendly. With enough wall area covered by a living green wall, save substantially on cooling costs like air conditioning. Additionally, humans living in areas with higher biodiversity reported feeling happier, and studies have even shown that the color green enhances creativity.
