Description

With this purchase you will get:

01

Diervilla Rivularis, Kodiak (Black, Choclote) Plant

01

5 inch Grower Round Plastic Pot (Black)

Description for Diervilla Rivularis, Kodiak (Black, Choclote)

Plant height: 10 - 16 inches (25 - 41 cm)

Plant spread: 5 - 9 inches (12 - 23 cm)

Diervilla rivularis is a species of flowering plant in the honeysuckle family known by the common names mountain bush-honeysuckle and hairy bush-honeysuckle.

Common name(s): Diervilla rivularis (Smndrsf)

Flower colours: -

Bloom time: July to August

Max reachable height: 2 to 3 feet

Difficulty to grow: Easy to grow

Planting and care

Dig holes or beds wide, not deep. Lightly amend heavy clay or sandy soils with organic matter. Gently remove plants from containers, keeping the root ball intact. Loosen potting soil and roots around bottom and edges of root ball. Plant level with surrounding soil, spreading roots outwards.

Sunlight: Full sun to part shade

Soil: Well-drained soil

Water: Medium

Temperature: -35 degrees C

Fertilizer: Apply any organic fertilizer

Caring for Diervilla Rivularis

Prune for size control and pedestrian safety, to remove dead or diseased plant parts, or to shape or train plants into hedges, topiary, espalier, or other interesting shapes. Broadleaf plants, both evergreen and deciduous, can be cut as hard as needed, even back to main trunks. New growth sprouts near the cut ends.

Typical uses of Diervilla Rivularis

Special features: Small hedge. Ground cover shrub. Naturalize in woodland gardens or on slopes. Shrub borders.

Ornamental use: The plant is used for ornamental purpose. Its generally kept indoor in living room and in terrace area.
