Fangfeng Plant

Description for Fangfeng

Plant height: 3 - 6 inches (7 - 16 cm)

Plant spread:

These estimates for how long Fang feng takes to sprout, grow and harvest are from real observations from real gardeners, right around the world.

Common name(s): Ledebouriella, Ledebouriella Root, Qing Fang Feng, Guan Fang Feng

Flower colours: Pink

Bloom time: summer

Max reachable height: 0.5 to 3ft.

Difficulty to grow: easy to grow

Planting and care

An accurate soil test will tell you where your pH currently stands. Acidic (sour) soil is counteracted by applying finely ground limestone, and alkaline (sweet) soil is treated with ground sulfur. If you order roses from a mail-order company, order early, in January or February (March at the latest). They are usually shipped in the spring as bare roots when plants are fully dormant, well before they have leafed out

Sunlight: Full Sun

Soil: well-drained soil

Water: Medium

Temperature: na

Fertilizer: Apply any organic fertilizer

Caring for Fangfeng

Start with pruning shears for smaller growth. Use loppers, which look like giant, long-handle shears, for growth that is more than half an inch thick. A small pruning saw is handy, as it cuts on both the push and the pull.

Typical uses of Fangfeng

Special features: plant have long tap roots which need to stretch out so the plants prefer well-dug, loose, well-draining soil; in preparing a bed, dig down 2 feet in depth and about 3 feet across to ensure the soil isn't too compact.

Culinary use: leaves

Ornamental use: The plant is used for ornamental purpose.

Medicinal use: na
