With this purchase you will get:

01

Aglaonema Butterfly Manis Plant

01

5 inch (13 cm) Grower Round Plastic Pot (Black)

Description for Aglaonema Butterfly Manis

Plant height: 5 - 9 inches (12 - 23 cm)

Plant spread: 4 - 8 inches (10 - 21 cm)

Aglaonema Butterfly Manis Plants is a species of genus aglaonema categorized under Araceae plant's family. Aglaonema is also known as Chinese evergreen. Aglaonema plants are attractive, varied, tough, drought-tolerant, low maintenance and hard to kill houseplants with colorful foliage.

Common name(s): Aglaonema Butterfly Manis, Chinese evergreens

Flower colours: Greenish-white spathe

Bloom time: Seasonal bloom

Max reachable height: up to 1.21 meter

Difficulty to grow: Easy to grow

Planting and care

Initial (1 -2 weeks) care once the plant reaches your place:

- Check the moisture in the soil before watering it.
- Poke your finger into the soil, if dry then apply water.
- Keep the plant in indirect light.
- Do not re-pot immediately after receiving it.

Key requirements to keep plant healthy:

Sunlight: bright indirect natural light or bright artificial light.

Soil: soil should be well-drained and fertile

Water: Medium

Temperature: 16 to 30-degree celsius

Fertilizer: Apply any organic fertilizer.

Caring for Aglaonema Butterfly Manis

Refer our [Garden Guide](#) for detailed procedures and meanings of words related to gardening.

Sunlight

- Keep the plant indoor with bright indirect natural light or bright artificial light.
- **Soil** Protect the plant from direct sunlight as it can cause damage to the foliage.
- **Watering** should be well drained and fertile for growing aglaonema plant.
- Water the plant when the topsoil (1-2 inch) in pot feels dry to touch.
- Do not overwater the plant.
- **Application of Fertilizer** During summer and reduce watering in winter and rainy season but do not let the plant dry out completely.
- During the main growing season feed the plant with organic fertilizer once a month.
- **Re-potting** topsoil without disturbing the roots of the plant so it can uptake the nutrients and moisture easily.
- When a plant outgrows in current pot, re-pot with fresh potting soil and some fertilizer.
- Do the re-potting late evening and keep the plant in shady area for 2 to 3 days and then move the plant in its suitable climatic condition.

For re-potting procedure [click here](#)

Plant Protection

- Remove dead, infected or damaged plant parts and discard them away from the plants.
- For any insect attack or disease, you can use Neem oil, Eucalyptus oil or Citrus oil spray for primary treatment.

Don'ts

- Do not place your plant in bright direct sunlight it can burn the leaves of plant.
- keep away from the AC Vents.
- Do not overwater the plant especially when pot does not have drainage holes.

Typical uses of Aglaonema Butterfly Manis

Special features: Large, deep green, and glossy leaves.

Ornamental use: This plant is used for landscaping gardening because of its beautiful variegated leaves.
