As shrub Allamanda grows very thick and get covered with yellow bell shaped 3 to 4 inches long blooms in growing season . Although it doesn't have tendrils to climb but provided support can grow as vine too.

**Common name(s):** Also Known as Allamanda cathartica, Golden Trumpet Bush, Buttercup Flower, Golden Bell. Bengali - Harkakra, Kannada - Arasinhu, Malayalam - Kolaambi, Telugu - Allenandatheega, Marathi - Pivlee Ghunti, Hindi - Pilaghanti.

**Flower colours:** Yellow.

**Bloom time:** Spring, Summer, Fall, Winter

**Max reachable height:** 3 to 6 ft.

**Difficulty to grow:** Easy.

## Planting and care

Allamanda is a bushy nature plant, large sized container is preferable as the plant gets heavy with the time. You may need to repot it every year. Regardless of size , make sure container has drainage holes at bottom to ensure smooth drainage of water. Put stone or brick pieces on the holes.

**Sunlight:** Full sun to Partial shade.

**Soil:** Soil pH 7.6 to 7.8 (mildly alkaline).

**Water:** Requires consistently moist soil. Do not let dry out between waterings.

**Temperature:** These tender plants will not withstand temperatures below 25 degrees F.

**Fertilizer:** Feed the plant with liquid fertilizer in growing season and cut it down to once a month in winter.

## Caring for Bush Allamanda

- Allamanda is a bushy nature plant, large sized container is preferable as the plant gets heavy with the time.
- You may need to repot it every year. Regardless of size , make sure container has drainage holes at bottom to ensure smooth drainage of water.
- Put stone or brick pieces on the holes.
- Allamanda grows very rapidly and needs pruning due to its bushy nature.
- Also pruning increases air circulation in plant required for good growth.

## Harvesting
