Coleus (Maroon) Plant

01

4 inch (10 cm) Grower Round Plastic Pot (Black)

## Description for Coleus (Maroon)

**Plant height:** 6 - 11 inches (15 - 28 cm)

**Plant spread:** 4 - 8 inches (10 - 21 cm)

Coleus (*Plectranthus scutellarioides*) plant belongs to the family Lamiaceae. They have some of the most stunningly colored foliage in combinations of green, yellow, pink, red, maroon. Coleus also has a wide variety of leaf sizes and overall shapes. These plants are great for adding color to the garden or home, especially in those dark, drab-looking corners.

**Common name(s):** *Plectranthus scutellarioides*, coleus.

**Flower colours:** Maroon.

**Bloom time:** Summer and Winter season.

**Max reachable height:** Up to 90 centimeters

**Difficulty to grow:** Easy.

## Planting and care

**Initial care for 1-2 weeks after receiving plant at your location:**

- Keep the plant in Natural indirect bright Light.
- Poke your finger/plain small stick into the soil to check the moisture.
- Apply 1 cup (Approx. 50 ml) water when top soil (1-2 inches) feels dry to touch.
- Do not re-pot for min. 2 weeks after receiving it.

**Key requirements to keep plant healthy:**

**Sunlight:** Natural bright light/indirect bright light.

**Soil:** Soil should be well drain and fertile, rich in organic content.

**Water:** Apply 1 cups (Approx. 50 ml) water when the topsoil (1-2 inch) in pot feels dry to touch.

**Temperature:** 20 to 35-degree celsius

**Fertilizer:** Apply organic fertilizer once a month.

## Caring for Coleus

Refer our [Garden Guide](#) for detailed procedures and meanings of words related to gardening.

### Sunlight

- **Site** your plant in a place that receives Natural bright light/indirect bright light.
- **Watering** should be well drained and fertile, rich in organic content.
- Poke your finger/plain small stick into the soil to check the moisture.
- Apply 1 cup (Approx. 50 ml) water when the top soil (1-2 inch) in pot feels dry to touch.
- Apply water probably in the morning or evening time.
- Do not overwater the plant.
- **Application of Fertilizer** the plant thoroughly in the summer and reduce watering in winter and rainy season.
- Before the application of fertilizer loosen the topsoil without disturbing the roots of the plant so it can uptake the nutrients and moisture.
- During the main growing season (Feb to May, July to Sep) feed the plant with organic fertilizer once a month.
- **Rain Protection** immediately after application of fertilizer.

- Remove dead, infected or damaged plant parts and discard them away from the plants.
- For any insect attack or disease, you can use Neem oil, Eucalyptus oil or Citrus oil spray for primary treatment.

**Don'ts**

- Do not over water the plant especially when pot does not have drainage holes.
- Avoid applying water on flowers and leaves it may cause fungus infection.

## Typical uses of Coleus

**Special features:**

**Culinary use:**

**Ornamental use:** Popular as a garden plant for its brightly coloured foliage. These plants are great for adding colour in the garden or home, especially in those dark, drab-looking corners.
