01

5 inch (13 cm) Grower Round Plastic Pot (Black)

## Description for Geranium (Any Color)

**Plant height:** 5 - 9 inches (12 - 23 cm)

**Plant spread:** 4 - 8 inches (10 - 21 cm)

**Note: The fragrance of Rose flowers depends on its variety and climatic conditions, hence this plant may or may not produce fragrant flowers.**

â€”The geranium plant belongs to the Geraniaceae family. Geranium is a small shrub and one of the most classic and easily recognizable flowering plants. These are grown for their clusters of brilliantly colored flowers. They are one of the most popular and rewarding of flowering plants.

**Common name(s):** Zonal geranium, garden geranium, malva malvon, Pelargonium hortorum, geraniums, cranesbills

**Flower colours:** Any color.

**Bloom time:** Spring to fall.

**Max reachable height:** Up to 60 centimeters

**Difficulty to grow:** Easy.

## Planting and care

**Initial care for 1-2 weeks after receiving plant at your location:**

- Keep the plant in Natural indirect bright Light.
- Poke your finger/plain small stick into the soil to check the moisture.
- Apply 3 cup (Approx. 150 ml) water when top soil (1-2 inches) feels dry to touch.
- Do not re-pot for min. 2 weeks after receiving it.

**Key requirements to keep plant healthy:**

**Sunlight:** 3-6 hrs of direct sunlight and indirect bright light for the rest of the day.

**Soil:** Soil should be well drain and fertile, rich in organic content.

**Water:** Apply 3 cups (Approx. 150 ml) water when the topsoil (1-2 inch) in pot feels dry to touch.

**Temperature:** 18.3 to 23.8-degree celsius

**Fertilizer:** Apply organic fertilizer once a month.

## Caring for Geranium

Refer our [Garden Guide](#) for detailed procedures and meanings of words related to gardening.

### Sunlight

- **Sunlight** 3-6 hrs of sunlight ideal for flowering and plant can grow well in natural indirect bright light for rest of the day.
- **Watering** should be well drained and fertile, rich in organic content.
- Poke your finger/plain small stick into the soil to check the moisture.
- Apply 3 cup (Approx. 150 ml) water when the top soil (1-2 inch) in pot feels dry to touch.
- Apply water probably in the morning or evening time.
- Do not overwater the plant.
- **Application of Fertilizer** the plant thoroughly in the summer and reduce watering in winter and rainy season.
- Before the application of fertilizer loosen the topsoil without disturbing the roots of the plant so it can uptake the nutrients and moisture.

- During the main growing season (Feb to May, July to Sep) feed the plant with organic fertilizer once a month.
  - **Apply Protection** immediately after application of fertilizer.
  - Remove dead, infected or damaged plant parts and discard them away from the plants.
  - For any insect attack or disease, you can use Neem oil, Eucalyptus oil or Citrus oil spray for primary treatment.
- Don'ts**
- Do not over water the plant especially when pot does not have drainage holes.
  - Avoid applying water on flowers and leaves it may cause fungus infection.

## Typical uses of Geranium

**Special features:** Beautiful eye-catching flowers.

**Ornamental use:** These are used for ornamental purpose for their beautiful colors.
