Nimboo, Lemon Plant

Description for Nimboo, Lemon

Plant height: 24 - 36 inches (60 - 92 cm)

Plant spread: 5 - 9 inches (12 - 23 cm)

This product does not have fruit at the time of shipping. After 2-3 year, the plant will bloom and set the fruit.

The lemon, Citrus limon, is a species of small evergreen tree in the flowering plant family Rutaceae, Its fruits are round in shape. In India, in terms of area under cultivation, citrus is the third largest fruit industry after Banana and Mango. Citrus require minimal pruning by trimming overcrowded branches, with the tallest branch cut back to encourage bushy growth.

Throughout summer, pinching back tips of the most vigorous growth assures more abundant canopy development. Lemons are one of the healthiest fruits out there with wide-ranging health benefits.

They are full of essential vitamins and minerals and have extensive use in the culinary world. Lemon nutrition is very low-calorific but rich in vitamins, essential oils and antioxidant.

Common name(s): Nimboo, Limboo, lime

Flower colours: White

Bloom time: February-March and June-July

Max reachable height: 2-4 meter

Difficulty to grow: Easy

Planting and care

Initial care for 1-2 weeks after receiving plant at your location:

- Poke your finger/plain small stick into the soil to check the moisture.
- Apply 4 cup (approx.200ml) of water when the top soil (1-2 inch) in the pot feels dry to touch.
- Keep the plant in indirect bright light.
- Do not re-pot for min. 2 weeks after receiving it.

Key requirements to keep plant healthy:

Sunlight: Natural bright light with morning sunlight(more than 6 hours)

Soil: Well drained, fertile and rich in organic content

Water: Apply 4 cup(approx.200ml) of water when the top soil (1-2 inch) in the pot feels dry to touch

Temperature: 13-37 Degree Celsius

Fertilizer: Apply organic fertilizer once a month during the main growing season (December-February)

Caring for Nimboo

Refer our [Garden Guide](#) for detailed procedures and meanings of words related to gardening.

Sunlight

- Soaking sunlight of more than 6 hours a day is ideal for flowering and fruit development.
- **Watering** should be well drained, fertile and rich in organic content for growing Nimboo plant.
- Poke your finger/plain small stick into the soil to check the moisture.
- Apply 4 cup (approx.200ml) of water when the top soil (1-2 inch) in the pot feels dry to touch.
- Do not overwater the plant.
- As a rule of thumb, water the plants thoroughly in summer and reduce watering in winter and rainy season.
- **Application of Fertilizer** preferably in the morning or evening.
- Before application of fertilizer loosen the topsoil without disturbing the roots of the plant so, it can uptake the nutrients and moisture easily.
- Apply organic fertilizer once a month during the main growing season (December-February)
- **Pest Protection** immediately after application of fertilizer.
- Remove dead, infected or damaged plant parts and discard them away from the plants.
- For any insect attack or disease, you can use Neem oil, Eucalyptus oil or Citrus oil spray for primary treatment.

Don'ts

- Do not overwater the plant.

- Avoid applying water on flowers and leaves it may cause fungal infection.

Harvesting

2-3 month after blooms

Typical uses of Nimboo

Special features: Lemon is a rich source of vitamin C, essential nutrients, numerous phytochemical

Culinary use:

- The oval fruit is famous is used widely for its juice. The whole lemon is used to make marmalade, lemon curd and lemon liqueur.
- The pulp and rind are also used, primarily in cooking and baking.
- Lemon juice is acidic in nature and makes it a cheap, readily available acid for use in educational science experiments.
- Lemon juice, rind, and zest are used in a wide variety of food and drink. It is used to make lemonade, soft drinks, and cocktails.

Ornamental use: Used as screening and hedge purpose in landscaping

Medicinal use: There is a belief in Ayurvedic medicine that a cup of hot water with lemon juice in it every morning tonifies and purifies the body. The following information is general guidelines, be sure to ask your healthcare provider for guidelines.
