With this purchase you will get:

01

Tradescantia Pallida, Purple Queen, Purple Secretia Plant

01

6 inch Grower Round Plastic Pot (Black)

Description for Tradescantia Pallida, Purple Queen, Purple Secretia

Plant height: 5 - 8 inches (12 - 21 cm)

Plant spread:

With its brilliant purple leaves and vines and its vigorous nature, a purple heart plant will attract the attention of visitors. Purple heart plant, also called purple queen, is a type of spiderwort grown as a perennial ground cover. The plant produces attractive pink flowers in addition to its bright foliage and grows in partial shade outdoors and bright filtered light indoors.

Common name(s): spider lily

Flower colours: -

Bloom time: Seasonal bloomer

Max reachable height: Trails to 2 ft

Difficulty to grow: easy to grow

Planting and care

With purple heart plant, propagating cuttings is as simple as sticking them directly in moist garden or potting soil, and keeping them moist until you see signs of new growth. Take cuttings from indoor purple heart plants whenever it is actively growing and from outdoor plants in the spring or summer.

Sunlight: Bright light. Some direct sun is fine, but keep your plant shaded from strong summer sun.

Soil: Peat moss-based potting mix.

Water: Water thoroughly, then allow the top 1 in (2.5 cm) to dry out between waterings.

Temperature: 18 C - 26 C

Fertilizer: N-P-K ratio 10-10-10

Caring for Tradescantia Pallida

Let the sun shine in. Grow your plant in bright light year-round for good foliage color. It will grow in lower light, but the leaves will be more green than purple. Give it some direct sun, but shade it from noontime sun in summer to avoid scorching its leaves.

Typical uses of Tradescantia Pallida

Special features: Groundcover or edging that provides color and contrast to other plants. Excellent in containers. Downward-trailing stems are ideal for hanging baskets. Rock gardens, borders fronts, wall plantings.

Ornamental use: The plant is used for ornamental purpose.
