### What makes it special

Bel benefits in healing digestive disorders, ulcers, headache, hypertension, diabetes, and numerous other ailments. The ripe fruit works as a laxative but is not digested easily. Unripe bel fruit, on the other hand, promotes digestion and cures diarrhea.

Apart from the fruit, the root, bark, leaves, as well as flowers of bel tree, have medicinal value. It is very easy to care plant once it establishes. It can easily be used for afforestation as it does not require much care after establishment.
