Description

Winter hardy to USDA Zones 8-10. In St. Louis, grow in containers or tubs that are overwintered indoors or as year-round houseplants. Container plants may be grown as shrubs or trained as ornamental standards.

Common name: yellow oleander

Color: Yellow

Bloom time: Seasonal bloomer

Height: 4.00 to 8.00 feet

Difficulty level: easy to grow

Planting & Care

Plant yellow oleander trees in part or full sun, since they like heat. The trees do best in well-draining soil with lots of organic content, so work in compost before you plant. You'll need to water these plants regularly. Pruning and litter cleanup (wear gloves) will take a little of your time as well.

Sunlight: Full Sun

Soil: well-drained soil

Water: Medium

Temperature: 55°F

Fertilizer: Apply any organic fertilizer
