### What makes it special

These veggies seeds are easiest to grow in the pot with low maintenance. You can grow these vegetables in the balcony or terrace garden. This pack contains different types of vegetable.

There are so many benefits of growing vegetable in pots like vegetables grown in containers are much easier to maintain because you have less problem with weeds and pests.

Growing vegetables in containers offer mobility that you would never be able to do in a raised bed or in-ground garden. Containers can be easily moved to provide optimum growing conditions.
