Planting and care

Growing plants can be inexpensive, particularly when growing them from seed. Seeds of plants flowers should usually be sown directly into the sunny flower bed, as developing roots do not like to be disturbed.

Sunlight: Full Sun to Partial Shade

Soil: well-drained soil

Water: -

Temperature: 40 F(4.4 C)

Fertilizer: Apply any organic fertilizer

Caring for Acacia Auriculiformis

Deadhead to prolong flowering. Maintain moderate soil moisture and fertilize lightly. Zinnias will die with the first frost.

Typical uses of Acacia Auriculiformis

Special features: This plant is raised as an ornamental plant, as a shade tree and it is also raised on plantations for fuelwood throughout southeast Asia, Oceania and in Sudan. Its wood is good for making paper, furniture and tools. It contains tannin useful in animal hide tanning. In India, its wood and charcoal are widely used for fuel. Gum from the tree is sold commercially, but it is said not to be as useful as gum arabic.

Ornamental use: The plant is used for ornamental purpose.
