01

Allamanda Creeper, Pentalinon luteum (Yellow) Plant

Description for Allamanda Creeper, Pentalinon luteum (Yellow)

Plant height: 15 - 23 inches

Plant spread: 3 - 5 inches

As shrub Allamanda grows very thick and gets covered with yellow bell-shaped 3 to 4 inches long blooms in growing season. Although it does not have tendrils to climb but provided support can grow as vine too.

Common name(s): Golden trumpet vine

Flower colours: Yellow

Bloom time: Spring, Summer, Fall, Winter

Max reachable height: 4 to 6 ft

Difficulty to grow:: Easy

Planting and care

Allamanda is a bushy nature plant, the large-sized container is preferable as the plant gets heavy with the time. You may need to re-pot it every year. Regardless of size, make sure container has drainage holes at the bottom to ensure smooth drainage of water. Put stone or brick pieces on the holes.

Sunlight: Full sun

Soil: Soil pH 7.6 to 7.8 (mildly alkaline), Any good-quality potting mix.

Water: Medium

Temperature: 25 to 35 degree C

Fertilizer: Feed the plant with liquid fertilizer in growing season and cut it down to once a month in winter.

Caring for Allamanda Creeper

Allamanda grows very rapidly and needs pruning due to its bushy nature. Also pruning increases air circulation in plant required for good growth.

Harvesting

Flowers are harvested throughout the year.

Typical uses of Allamanda Creeper

Special features: Allamanda woody vine grows vigorously in full sun or semi shade, even in poor soil. The plant climbs grows rapidly, making it good for use over pergolas or on structures with some horizontal support.

Culinary use: NA

Ornamental use: Plants are used for an ornamental purpose.

Medicinal use: NA
