Description

Description for Allamanda Variegated (Yellow)

As shrub Allamanda grows very thick and get covered with yellow bell shaped 3 to 4 inches long blooms in growing season . Although it doesn't have tendrils to climb but provided support can grow as vine too.

Common name	Flower colours	Bloom time	Height	Difficulty
Golden trumpet	Yellow.	Spring, Summer, Fall, Winter	4-6 ft.	Easy.

Planting and care

Allamanda is a bushy nature plant, large sized container is preferable as the plant gets heavy with the time. You may need to repot it every year. Regardless of size , make sure container has drainage holes at bottom to ensure smooth drainage of water. Put stone or brick pieces on the holes.

Sunlight	Soil	Water	Temperature	Fertilizer
Full sun to Partial shade.	Soil pH 7.6 to 7.8 (mildly alkaline).	Requires consistently moist soil. Do not let dry out between waterings.	These tender plants will not withstand temperatures below 25 degrees F.	Feed the plant with liquid fertilizer in growing season and cut it down to once a month in winter.

Caring for Allamanda Variegated

Allamanda grows very rapidly and needs pruning due to its bushy nature. Also pruning increases air circulation in plant required for good growth.

Typical uses of Allamanda Variegated
