What makes it special

Air purifier plants are best known for removing toxins from their surrounding. An air purifier plant is easy to care and require low maintenance. Giving these plants means you are not only giving something beautiful but also a healthy lifestyle for your staff members. You can keep these plants on a location receiving bright indirect light may it be a window sill or an office desk, these plants will make the receiver happy for sure. This plant is a natural air purifier. Plants are also known to reduce stress, anxiety, improves mood and concentration at work when placed around you.

Caring instructions

Water a plant when the soil feels dry to touch. Water thoroughly in the summer and reduce watering for the winter & rainy season.

Try to water the plants in the morning around 8-10am.

You should remove dead, infected or damaged plant parts and throw in the garbage collector.

You should prune and fertilize a plant mostly in the spring season.

When a plant grows beyond it's limit and pot size not providing enough space for the spread of roots, re-pot with fresh soil and some fertilizer.

While re-potting, try not to disturb the roots. Avoid any drastic change in the provided environment otherwise, the plants may get stress/shock.

For any insect attack or disease, you can use Neem oil, Eucalyptus oil or Citrus oil spray for primary treatment.
