01

Areca Palm (Small) Plant

01

4 inch Grower Round Plastic Pot (Black)

Description for Areca Palm (Small)

Plant height: 6 - 11 inches

Plant spread:

The areca palm (*Chrysalidocarpus lutescens* or *Dypsis lutescens*), also called the yellow butterfly palm and golden cane palm is one of the easiest palm trees to grow indoors.

The foliage is evergreen, of Fine texture and yellow-green in color. Pinnate, 6 to 8 pale green leaves per stem, 80 to 100 leaflets, to 8 feet long (2.4 m). Yellow if grown with enough light, 2 feet long. Yellow male and female flowers on the same inflorescence.

This palm tree, with its long, graceful feather-shaped fronds, will add a tropical feel to your home and is especially well suited for screened patios and atriums.

Common name(s): Golden Cane Palm, Areca Palm, Butterfly Palm, Madagascar Palm

Flower colours: Yellow

Bloom time: During late spring or early summer

Max reachable height: 6 to 7 feet

Difficulty to grow: Easy

Planting and care

Areca palm is propagated by seeds, by separating the offsets or suckers at the base of a mature plant, or by plant division.

Sunlight: Full to partial sunlight

Soil: Chalky, Loamy, Sandy soil: moist but well-drained

Water: Water the plant until the soil is evenly moist. Do not over water the palm plant or leave it sitting in water.

Temperature: 20 to 30 degree C

Fertilizer: Feed your palm regularly during the growing season. If possible, use a palm fertilizer, which will contain all the micronutrients and extra potassium and manganese.

Caring for Areca Palm

- Palms grow best when you let their roots fill the pot.
- They need soil-based potting compost and should not be re-potted unnecessarily.
- They are sensitive to chemicals and will be damaged if you expose them to aerosol sprays.
- If you need to treat them with insecticides, be sure what you use is suitable for a palm.

Harvesting

NA

Typical uses of Areca Palm

Special features: The most popular indoor houseplants sold today. Indoors an Areca palm is a medium sized exotic looking plant that can reach a height of 6-8 feet; outdoors it may be as tall as 25 feet.

Culinary use: NA

Ornamental use: This is one of the most useful Palms of the tropics the world around.

Medicinal use: NA
