**Care:**

- Whether you are going to use a living tree or a cut tree, there are a few important things you should know about selecting and caring for your Christmas tree.
- The first consideration should be freshness, after all, you want to be sure that your tree will survive through the entire holiday season.

**Special Feature:**

Adiantum caudatum is an evergreen, perennial fern producing fronds up to 60cm tall from a shortly-creeping rhizome. The fronds are arching to semi-prostrate, forming roots at their apex from which a new plant develops[200 ].

Use

**Medicinal use:**

- Adiantum philippense is well known for its antioxidant potential.
- Used in treatment of paralysis, blood diseases, epileptic fits, rabies, dysentery, elephantiasis, pimples, and wounds.
- It is also known for its antimicrobial activity.

**Ornamental use:**

- The plant is used for ornamental purpose.

**Note:**

for medicinal use
