Planting & Care

Before you plant, be sure that you choose varieties proven in your climate. When in doubt, All-America Rose Selections winners are good bets. Or check with your local nursery.If you order plants from a mail-order company, order early, in January or February (March at the latest).

Sunlight: Full sun

Soil: well-drained soil

Water: Medium

Temperature: 20-22 °C

Fertilizer: Apply any organic fertilizer

Care:

- Diligently water your plants.
- Soak the entire root zone at least twice a week in dry summer weather.
- Avoid frequent shallow sprinklings, which won't reach the deeper roots and may encourage fungus.
- Plants do best with 90 inches of rain per year, so unless you live in a rain forest, water regularly.

Special Feature:

In the St. Louis area, this fast-growing annual vine provides quick cover for trellises, walls, fences, arbors or poles. Also may be grown in large containers.

Use

Culinary use:

- leaves

Ornamental use:

- The plant is used for ornamental purpose.
-
