Description "Jewels of Opar" redirects here. For the novel, see Tarzan and the Jewels of Opar.

Common name: Variegated Jewels of Opar

Color: Yellow

Bloom time: June to frost

Height: 3.00 to 5.00 feet

Difficulty level: easy to grow

Planting & Care

Plant care may require a bit of effort, but the results are well worth the work. Not all plants are fragrant, but the most common and hardy do produce a sweet, carrying fragrance. Common is a vine and has larger glossy green leaves than Royal. Both can survive in temperate climates if they are planted in a sheltered area. Arabian is a small bush with evergreen leaves.

Sunlight: Full sun

Soil: well-drained soil

Water: Medium

Temperature: 68 degrees F

Fertilizer: Apply any organic fertilizer

Care:

- To help conserve water, reduce stress, and encourage healthy growth, apply a 2- to 4-inch layer of chopped and shredded leaves, grass clippings, or shredded bark around the base of your plants.
- Allow about an inch of space between the mulch and the base stem of the plant.

Special Feature:

For the St. Louis area, grow in containers as patio plants that are overwintered indoors. In southern Florida and California, this may be planted as a specimen or massed in gardens and shrub borders or grown in containers.

Use

Ornamental use:

- The plant is used for ornamental purpose.

Note:

No serious insect or disease problems. Watch for spider mites and whiteflies on indoor plants.
