Description

Gardens can contain flowers, plants, herbs, vegetables, and decorative elements. Using pebbles in a garden brings different colors and textures to the garden. Pebbles can also fill up otherwise empty space in the garden, leaving a visual that might be considered more interesting and aesthetic than simple dirt, soil or mulch. Pebbles in the garden can serve other purposes, such as creating a decorative border or a landscaped path, providing a pretty ground and soil cover, and providing dry garden beds. Pebble a garden with a mix of pebbles and minerals that complement the vegetation in the yard.

I thought the pebbles size was bigger but they turned out to be smaller ones. But the quality is good.

Pebbles delivered were of a very small quantity. What was depicted in the picture and what was delivered was totally very VERY DIFFERENT. I am very disappointed with the product.
