What makes it special

Aloe vera plants are best known for removing toxins from their surrounding.

It is easy to care and require low maintenance.

Giving Aloe vera plants means you are not only giving something beautiful but also a healthy lifestyle.

This plant is a natural air purifier and also known to reduce stress, anxiety, improves mood and concentration at work when placed around you.

Caring instructions

Soil should be well drained and fertile for growing Aloe vera.

Aloe vera should be kept in a place receiving at least 4-5 hours of bright indirect sunlight.

Water the Aloe vera plant when the soil feels dry to touch. Water thoroughly in the summer and reduce watering for the winter & rainy season. Fertilize Aloe vera plant mostly in the spring season with an organic fertilizer. Repot the plant in every 2-3 years in the pot larger than the previous pot. While re-potting, try not to disturb the roots.
