Description

Description for Crassula Perforata

Louis, it is a popular indoor plant that usually grows 18 to 30 tall. As it matures, its trunk-like succulent stems often take on the appearance of a miniature tree. Oblong, fleshy, shiny, evergreen leaves. Leaves may acquire red tints when grown in direct sun.

Common name	Flower colours	Bloom time	Height	Difficulty
String of Buttons, Necklace Vine, Crassula perfoffa, Crassula	White to pink	Seasonal bloomer	3 to 6 feet	Easy to grow

Planting and care

Plant where they will receive a minimum of 5 to 6 hours of full sun per day. Plants grown in weak sun may not die at once, but they weaken gradually. Give them plenty of organic matter when planting and don't crowd them. Wear sturdy gloves to protect your hands from prickly thorns.

Sunlight	Soil	Water	Temperature	Fertilizer
Part shade	Well-drained soil	Medium	7 to 10 degrees C	Apply any organic fertilizer

Caring for Crassula Perforata

Plant care is not difficult but does require vigilance. The vines need to be trained early when they are young. You may use plant ties or just weave them through trellis sections. Fertilize the plant in spring just before new growth appears. Pinch off the tips of the vines in the second year to promote branching which will fill the trellis with bushy growth.

Typical uses of Crassula Perforata

Special features: Houseplant for bright, dry areas.

Culinary use: na

Ornamental use: The plant is used for ornamental purpose.
