Description

Description for Crassula Princess Pine

Crassula capitella or the Campfire Plant is a perennial succulent plant native to southern Africa.

Common name	Flower colours	Bloom time	Height	Difficulty
Crassula capitella	-	Summer or early autumn	1 to 1.5 feet	Moderately easy,

Planting and care

Growing plants can be inexpensive, particularly when growing them from seed. Seeds of plants flowers should usually be sown directly into the sunny flower bed, as developing roots do not like to be disturbed

Sunlight	Soil	Water	Temperature	Fertilizer
Full sun, Partial sun	Well-drained soil	Keep soil moist throughout the growing season	30 to 40 degrees C	Use any organic fertilizer

Caring for Crassula Princess Pine

- Deadhead to prolong flowering.
- Maintain moderate soil moisture and fertilize lightly.
- plant will die with the first frost.

Typical uses of Crassula Princess Pine

Special features: The Campfire crassula is a branching succulent with fleshy propeller-like leaves that mature from bright lime green to bright red. Leaves turn bright red if not over-watered and the plant receives direct sun for most of the day, during drought or in cold temperatures.

Ornamental use: The plant is used for ornamental purpose
