Description Crinum procerum var. splendens is a large bulb. It has somewhat rigid strap-leafed foliage. The foliage is the color of rich burgundy. This strap-leafed foliage grows 3 to 4 feet tall and arches as wide. In autumn and intermittently throughout the year, a thick stem will rise holding a plump bud filled with a cluster of narrow, trumpet-like furls of flowers that open into a delicate array of white petals blushed in diaphanous wine color.

**Common name:** Grand Crinum Lily or Spider Lily.

**Color:** Pink & White

**Bloom time:** Fall.

**Height:** 3-4 feet.

**Difficulty level:** Easy.

**Planting & Care**

Remove the plant carefully from its pot by laying it on its side and lightly tapping the sides of the container. Gently slide the plant out of the pot.

**Sunlight:** Full Sun.

**Soil:** Rich, well-drained soil.

**Water:** Requires consistently moist soil; do not let dry out between waterings.

**Temperature:** Hardy to 20° F but with some foliage damage - evergreen to around 27° F.

**Fertilizer:** During the plants growing season a apply a balanced fertilizer diluted to ¼.
