Description

Description for Croton Gold Dust (Small Leaves), Codiaeum Variegatum Aucubaefolia

The croton plant is one of the most dramatic. Warm tropical colours and exotic lobed leaves make it a beautiful addition to any brightly lit room. It is hard not to notice this bushy, upright plant because of the vividly coloured foliage. The Croton house plant, has leaves splashed with green, orange and red with the veins often yellow, depending on the variety.

Common name	Flower colours	Bloom time	Height	Difficulty
Josephs Coat, Garden croton	-	Annual	6 to 8 feet	Medium.

Planting and care

Crotons (*Codiaeum variegatum*) are tropical plants that grow outdoors and as house plants elsewhere. Growing to a height of 6 to 8 feet and width of 3 to 6 feet, crotons are attractive as a single plant or a grouping and grow well in pots or in the ground. Their green leaves turn into shades of yellow, red and purple, showing their brightest colours in the sunlight. You can grow cultivars of crotons

Sunlight	Soil	Water	Temperature	Fertilizer
Bright light, whether it is natural or artificial light.	Peat moss based potting mix.	Water the plants when the top of the soil is dry. On	Should be kept in warm temperatures, with the	Feed every 2 weeks from early spring through summer

especially hot days, you may need to water the crotons twice a day.

minimum being approximately 60°F.

with a balanced liquid fertilizer diluted by half.

Caring for Croton Gold Dust

It requires high humidity. Mist daily if possible. Stand the plant on a tray of wet pebbles.
