Description

Description for Crinum Moorei Album

It is one of the larger members of the world-wide tropical to temperate ornamental lily family, Amaryllidaceae.

Common name	Flower colours	Bloom time	Height	Difficulty
Natal lily; Inanda Lily; Ngomi Lily, Boslelie; Natal-lelie; Ngomilelie; Rivierlelie, ibhucu, Umnduze	White to pale pink flowers	Spring to Summer	1.5 to 2 feet	Easy

Planting and care

Ensure that you leave sufficient space between the bulbs, as they produce new bulbs around the mother quite readily and will become overcrowded after a couple of years.

Sunlight	Soil	Water	Temperature	Fertilizer
Full sun, Partial sun	Loamy soil	Low	20 to 40 degrees C	Use any organic fertilizer

Caring for Crinum Moorei Album

Plant in full or dappled shade in good garden soil, well mixed with compost and fertilizer.
