Description

### Description for Dieffenbachia Compacta, Perfecta

Native to Central and South America and a relative of our skunk cabbage, *Symplocarpus foetidus*, Dieffenbachia is a broad-leaved foliage plant with thick succulent stems.

The large and showy dieffenbachia can be the perfect living decoration for the home or office. When you learn how to care for a dieffenbachia plant, you'll find it to be adaptable to different kinds of lighting and conditions.

Common name	Flower colours	Bloom time	Height	Difficulty
Dumb cane or leopard lily	-	-	4 to 5 feet	Easy

### Planting and care

With a minimum temperature of 5 degrees C (41 degrees F), dieffenbachia must be grown indoors in temperate areas.

They need light, but filtered sunlight through a window is usually sufficient.

They also need moderately moist soil, which should be regularly fertilized with a proprietary house plant fertilizer.

Leaves will periodically roll up and fall off to make way for new leaves.

Yellowing of the leaves is generally a sign of problematic conditions, such as a nutrient deficiency in the soil. Dieffenbachia responds well to hot temperatures and dry climates.

Sunlight	Soil	Water	Temperature	Fertilizer
Bright light but not direct sunlight	Well draining soil	Lots of water during the summer. Soil stays moist	Normal temperature like 17 to 27 degrees C	During the primary growing season that is March

but not wet.  
During the winter season  
watering should be reduced.

Through October and feed  
every other week when  
watering using a complete  
liquid food. During the winter  
months use NO fertilizer and  
water only.

## Caring for Dieffenbachia Compacta

- When potting or repotting plants, springtime is best just before the growing season begins.
- Rotate the dieffenbachia house plant regularly to provide adequate light to all sides of the plant and prevent it from reaching toward the light on one side.

## Typical uses of Dieffenbachia Compacta

### Special features:

**Ornamental use:** The large and showy dieffenbachia can be the perfect living decoration for the home or office.
