Description

## Description for Dracaena Colorama

Dracaena Marginata, is a popular indoor plant originally from East Africa that is often used to adorn homes and offices. These are some of the best house plants and make great additions to any home while requiring minimal care. Bright indirect light is best and they will take some morning sun. Most Dracaena will tolerate lower light levels for some time with reduced watering frequency.

Common name	Flower colours	Bloom time	Height	Difficulty
na	-	Summer	6 to 10 feet	Easy.

## Planting and care

The best way to grow dracaenas is to buy a small one from us and plant it in a simple pot. After that, the necessary care is very simple. Plants that are dark green usually require less light than those that have any kind of colour in their leaves. The less light a plant has, the slower it grows. The slower it grows the less water and fertilizer it needs.

Sunlight	Soil	Water	Temperature	Fertilizer
Partial Sun, Partial Shade	Loose, well-drained potting	Allow the plants to dry	They thrive between 65-75°F	Fertilize lightly at the

mix. between watering, but not and 80°F. They will suffer beginning of spring or twice completely. if it gets too cold and cannot a year with controlled-release fertilizer. tolerate freezing.

### Caring for Dracaena Colorama

- D. marginata is sensitive to fluoride, which can cause discolouration. Water with distilled or non-fluoridated water.

### Typical uses of Dracaena Colorama

**Special features:**

**Culinary use:** na
