Description Easily grown in average, medium, well-drained soil in full sun to part shade. Wide range of soil tolerance as long as drainage is good. Prefers rich, moist soils in light to moderate shade. Freely self-seeds and will naturalize to form large colonies in optimum growing conditions. Remove flowering stems after bloom to encourage additional bloom. Keep soils uniformly moist after bloom to prolong attractive foliage appearance. When foliage depreciates, plants may be cut to the ground.

Common name: columbine

Color: Green, White.

Bloom time: April to May

Height: 2.00 to 3.00 feet

Difficulty level: easy to grow

Planting & Care

The incidence Cumulative Trauma Disorders (CTDs) in nursing homes is a growing problem. Constant interaction between patients and employees and the absence of proper equipment result in many preventable sprains and strains.

Sunlight: Full Sun to Partial Shade

Soil: well-drained soil

Water: Medium

Temperature: maintained at 280C and 300C

Fertilizer: Apply any organic fertilizer

Care:

- Eaglewood Care Center, like many other elderly care facilities in the state, faced high employee injury and turnover rates due to everyday, work related tasks.
- These tasks include lifting residents, repositioning them and assisting with their many other daily activities.
-

Special Feature:

Borders, cottage gardens, open shade gardens, woodland gardens or naturalized areas. Also a good selection for a hummingbird garden. Continue to water plants after bloom to enjoy the ground cover effect of the attractive foliage.

Use

Ornamental use:

- The plant is used for ornamental purpose.

Note:

This species has very good resistance to leaf miner which often causes severe damage to the foliage of many other columbine species and hybrids.
