Description

### Description for *Excoecaria Bicolor* Variegated, Chinese Croton

*Excoecaria bicolor* is a very colourful plant. Rich subtle shades of greens, whites and reds. The combination is a symphony. A brilliant lacquered red beneath and the arching woody stems.

It is a bit brittle and sap can be irritating, especially to the eyes, so best handle carefully and not a plant to put close to a walkway but otherwise, it is a very attractive and pest free plant.

Common name Chinese croton, Blindness tree, Buta Buta, Jungle Fire plant	Flower colours -	Bloom time Spring/Fall	Height 3 to 5 feet	Difficulty Easy
---	---------------------	---------------------------	-----------------------	--------------------
