Description

## Description for Excoecaria

Excoecaria bicolor is a very colourful plant. Rich subtle shades of greens, whites and reds. The combination is a symphony. A brilliant lacquered red beneath and the arching woody stems.

It is a bit brittle and sap can be irritating, especially to the eyes, so best handle carefully and not a plant to put close to a walkway but otherwise it is a very attractive and pest free plant.

Common name	Flower colours	Bloom time	Height	Difficulty
Chinese croton , Blindness tree, Buta Buta, Jungle Fire plant	-	Spring/Fall	3-5 feet	Easy.

## Planting and care

Sunlight	Soil	Water	Temperature	Fertilizer
Cool Sun/Light Shade	Well-drained soil	Medium Water Needs.	winter hardy up to 30-32Å° F.	-

## Caring for Excoecaria

Not as sun tolerant as the regular variety. Also not tolerant of too much or too little water. Grow well in bright light to shade.

## Typical uses of Excoecaria

### Special features:

**Ornamental use:** With its dramatically colourful foliage, Eexcoecaria bicolor makes a showy accent plant in any garden. It can be grown indoors as a house plant or greenhouse plant and outdoors to add interest and contrast.

Sunday, 06 August 2017

Pot seems to be really small. DO I have to shift the plan to the bigger pot as it starts growing in a few months?
