Description

Description for Gladiolus (Red)

Gladiolus are available with flowers in a huge range of colors, including apricot, blue, burgundy, pink, gold, red, orange, and white, as well as

multicolored varieties.

It is sometimes called the sword lily. A great cutting flower, gladioli look beautiful in midsummer bouquets. Height ranges from 2 to 5 feet. Their stems are generally unbranched, producing 1 to 9 narrow, sword-shaped, longitudinal grooved leaves. The flower spikes are large and one-sided. They are united at their base into a tube-shaped structure.

Common name(s): Sword lily

Flower colours: Red

Bloom time: Summer

Max reachable height: Up to 5 feet

Difficulty to grow: Easy to grow

Planting and care

Gladiolus bulbs submerge in the water until they do not germinate well. After germinated bulb is planted in the potting mix. Keep the plant where the maximum sunlight is available. Watering should be done early in the morning if the soil is dry.

Following are the suggested compositions for bulb plantation:

Garden soil + Compost + Perlite + Sand (2:2:1:1) or,

Soil + Cocopeat + vermicompost (1:1:1)

Sunlight: Full to partial sunlight

Soil: Sandy loam soil

Water: Moderately

Temperature: 20 to 30 degrees C

Fertilizer: Apply any organic fertilizer.

Caring for Gladiolus

- Water a plant when the soil feels dry to touch. Water thoroughly in the summer and reduce watering for the winter & rainy season.
- Try to water the plants in the morning around 8-10am.
- You should remove dead, infected or damaged plant parts and throw in the garbage collector.
- You should fertilize a plant at planting time and growing season.
- Mulch the potting mix with organic material.

Typical uses of Gladiolus

Special features: Attractive flower
