Description Note:: There will not be any germination guarantee, however our customer response shows up to 70% germination rate. Also we do not provide guarantee of message however number of complaints received so far is very less.

The first 2 leaves of plant should contain the message written over them (as specified by vender).

Seeds Count in pack: 2 seeds

This magic seed is a special gift for your someone special, a friend, a co-worker or a family member. Make sure to water every week and watch it grow.

Each sprout will contain it s own little message that will carry throughout the duration of the germination.

Soon after that you will see a little green plant showing your message to the receiver.

Enjoy an unique live gift.

Planting & Care

Temprature: 18 to 25 degree celcius.

Care:

- Temprature: 18 to 25 degree celcius.
- Soil: Medium quality Germination Time: 5 to 10 days Moisture: occasionally water the soil to moisturize the bean and just wait.
- Dimension: approx 2.
- 5cm x 1.
- 5cm x 1cm.
- The "Magic Bean" or "Message Bean" has been etched with short messages such as "I Love You" or "Happy Birthday".
- The message seed is nestled in a growing medium inside a decorative aluminum can.
- The "Magic Bean" is marketed as a gift alternative to the basic greeting card and the Message plants are given as gifts for special occasions and holidays.
- Just Open, Water, and Watch your message bean grow to reveal the secret message on the cotyledon.

- The message will emerge in approximately 5-10 days.
- The message seed first appears with the outer seed coat covering the inner cotyledon.
- Without coaxing, the seed coat will fall off in a day or two to reveal the inner cotyledon.
- At first, the inner cotyledon is yellow, but with the addition of sunlight, the inner cotyledon will quickly turn green.
- The message seed will begin to splay open, somewhat like a butterfly spreads its wings, and send a leaf skyward, all the while exposing its special magic message for all to see.
- It really is an amazing message plant.
- The message bean seedling proudly carries its amazing message for several weeks before the message dries up and falls off.
- Many people transplant the message plant into a large pot or into the ground to grow.
- The fast growing vine will climb and quickly cover a trellis, fence or a wall.
- The fruits of the message plant will grow to look like giant swords 12-18 inches long.
- The message bean plant will continue to grow for several years if it is grown in a warm climate, or kept indoors in a cooler climate.
- The words on this amazing message plant are laser etched onto the seed by a patented process.
- Message Beans encoded with "Congratulations" and "Merry Christmas" can now be found in various markets.
- Once the message plant is opened and watered, the recipient makes magic wishes and waits anxiously for the message plant to emerge.
- Kids love to water and take care of this amazing message plant.
