Description

Description for Haldi, Turmeric, Curcuma (Yellow)

Turmeric or haldi is one ingredient in your kitchen that holds a remedy for almost all illness you are likely to encounter. A staple spice in almost

Common name	Flower colours	Bloom time	Height	Difficulty
Turmeric	Yellow	August	1 m (3 ft 3 in)	Easy to grow

Planting and care

Turmeric powder is used extensively in South Asian cuisine. Curry of fresh turmeric, referred to as haldi ki Sabji, is a dish from Rajasthan (India).

Turmeric grows wild in the forests of South and Southeast Asia. It is one of the key ingredients in many Asian dishes.

Sunlight	Soil	Water	Temperature	Fertilizer
Full Sun to Partial Shade	well-drained soil	Keep soil moist throughout the growing season	60 to 100 degree	Apply any organic fertilizer

Caring for Haldi

- Turmeric is a rhizomatous herb, native to tropical South Asia.
- Turmeric is a very important spice in India, which produces nearly the whole world's crop and uses 80% of it.
- The plant grows to a height of 3-5 ft. It has oblong, pointed leaves and bears funnel-shaped
- yellow flowers, peeping out of large bracts. The rhizome is the portion of the plant used medicinally

Typical uses of Haldi
