Note: The selection of plant (size/color) & pot design may vary depending on availability

Common name	Flower colours	Bloom time	Height	Difficulty
Jade plant and String of Beads	After a dormant period in winter, the bush produces small flowers grouped in clusters at the ends of the branches.	After a dormant period in winter	Varies	Easy

Planting and care

For indoor cactus & succulents, recommended pot size is 10inch, it may do well in 6 inch pot as well.

Typically an indoor cactus & succulents does not change greatly in size, and you want to avoid excess soil in the pot, which can hold too much water and rot the cactus.

Sunlight	Soil	Water	Temperature	Fertilizer
Place the plant in a bright area of the home; a south or southeast facing window works great. If natural light is not adequate, you can supplement with a nice	Use a potting soil mix with a little sand; a cactus & succulents likes good drainage. You can mix in a little slow release organic fertilizer, but it is not	It requires normal watering when the soil is dry in the summer, and very little watering in the winter. Over-watering will cause it to lose its leaves.	Place the cutting in a moderately lit area where temperatures are at least 65 degrees F (18 degrees C).	Implement a low-nitrogen liquid fertilizer every 6-8 weeks between spring and early fall.

natural white florescent bulb. necessary. Make sure to
You can put it outside in summer and spring, with indirect light, but it will need to remain indoors during fall and winter.
pack down the soil around the transplanted plant, and thoroughly water it, to help spur the rooting process in the new soil.

Caring for Happy Bonding With Jade Plant and Senecio Herreianus

Gift Care

- Clean the ceramic pot & wine glass with clean cloth regularly.
- Do not put extra water, water plant twice a week.
- Keep the set indoor, dust-free environment.
- Keep the set away from the reach of children.

Plant care

- The most common mistake made in succulent plants is watering. They are drought tolerant but do require watering from April to October.
- In winter the plants are dormant and you may suspend watering.
- Elephant bush succulents in the home interior should not have consistently wet feet.
- Make sure the pot drains well and dont leave a saucer with water sitting under the container.
