Description for Heliconia Stricta Dwarf Jamaican

Plant height: 14 - 23 inches

Plant spread: 5 - 9 inches

It is one that resembles most to the birds-of-paradise. It is an exotic, which blooms abundantly all year long. It has long pointed leaves which shiny green with a red edge. The leaves look similar to that of a banana. It is an exotic, which blooms abundantly all year long. The flowers also make good cut flowers. Very beautiful as a potted plant on the patio in a decorative container.

Common name(s): Heliconia Stricta Dwarf Jamaican, Heliconia stricta Bucky, Heliconia stricta Valentina, christmass Rose(Europe), Winter rose (australia)

Flower colours: Red

Bloom time: Blossoms in spring, summer and fall.

Max reachable height: 2 feet - 5 feet.

Difficulty to grow:: Easy.

Planting and care

Sunlight: It needs to be grown in full sun

Soil: Freely draining soils with high organic matter.

Water: Allow the soil to dry out upto top 2 inches before watering again.

Temperature: The plant requires a hot atmosphere.

Fertilizer: This plant loves to be fed. Fertilize 3 times a year with a top quality granular fertilizer. Supplement feedings with regular applications of liquid fertilizer during warm months for heavier bloom.

Caring for Heliconia Stricta Dwarf Jamaican

- The plant requires a high humidity area. It can be grown well next to a water body.

- Add top soil or organic peat humus to the hole when you plant. You might also add in composted cow manure to enrich the soil around the plant's rootball.
- Dead leaves and old stems that have finished flowering should be removed to encourage more flowering.
- In spring cut back to the ground any cold damaged stalks.
- This plant loves to be fed. Fertilize 3 times a year with a top quality granular fertilizer. Supplement feedings with regular applications of liquid fertilizer during warm months for heavier bloom. Regular irrigation is a must.
- This plant needs water and it needs it often (2 to 3 times a week in summer), though it doesn't do well in a boggy area.

Typical uses of Heliconia Stricta Dwarf Jamaican

Special features: Used as Bedding Plant, Container Plant, Cut flower Plant, Feature Plant, Ground cover Plant and Mixed Border Plant

Ornamental use: The flowers make good cut flowers. Very beautiful as a potted plant on the patio in a decorative container.
