Sunlight	Soil	Water	Temperature	Fertilizer
Exposed or Sheltered South-facing or West-facing or East-facing or North-facing	Well-drained, Moist but well-drained	Keep soil moist	-	Use any organic fertilizer

Caring for Helxine Soleirolii

- Grow under glass or as a house-plant in a loam-based compost with added grit in full light with shade from hot sun or in partial shade. Water freely in summer but keep just moist in winter. Can be grown outdoors in any soil but may be invasive and becomes deciduous in frost prone areas; suitable for use as bedding, including hanging baskets

Typical uses of Helxine Soleirolii
