Note:- The products are custom made and would be hand-delivered in a week time after placing the order

This beautiful pack contains:

2 Syngonium green variegated plants

2 heart shaped glasses

Hydropod plant gel

As a young plant, its leaves start out heart-shaped, then gradually become arrowhead shaped as it matures. Its dark-green leaves have silvery white or cream variation, making this a decorative and popular houseplant. Although it may be grown outdoors in some regions, the arrowhead plant is typically grown as a houseplant.

Common name(s): Nephthytis, Arrowhead plant, Arrowhead vine, Arrowhead philodendron, Goosefoot, African evergreen, American evergreen.

Flower colours: Pale white

Bloom time: Rarely flowers indoor

Max reachable height: Up to 5 feet

Difficulty to grow: Easy to grow

Planting and care

It is easily grown is a houseplant in warm, humidified areas. Prefers partial or indirect light. Protect from direct sun. May be grown on a moss pole or in a hanging basket. Water regularly during the growing season, but reduce watering from fall to late winter.

Likes high humidity, so consider sitting plant in a humidified room or place pot on a tray of wet pebbles. Feed every 2 weeks from spring through fall with a balanced houseplant fertilizer diluted to half the normal strength. In winter, feed monthly.

Sunlight: Filtered light or Part shade

Soil: NA

Water: -

Temperature: Normal room temperatures that are 16 to 26 degrees C

Fertilizer: -

Caring for Hydropod gel plants with heart shape glass

- Arrowhead plant care requires humid conditions, especially during dry winter months.
- Provide a nutrient solution once in 15 days to keep the plants well along with the normal water thrice a day.
- Keep them away from direct sunlight, as this will cause the arrowhead plant to burn or bleach.
- You should not dispose the Hydropod Gel in wash basin/drains. Try to bury those gels near avenue trees. You have to use this gel only for indoor plants.

Harvesting

Not defined
