Description

Description for Kapoor Tulsi, Ocimum sanctum, Holy basil

Ocimum tenuiflorum (synonym- Ocimum sanctum) is the scientific name of the Kapoor tulsi. Tulsi is a perennial, branched, fragrant, and erect herb having hair all over. Its leaves are nearly round and up to 5 cm long with the margin being entire or toothed. Flowers are rarerly longer than 5 mm, calyx tube bearded outside near base. Flower tube is hairy. The fruits are small and the seeds yellow to reddish in color.

Common name Holy basil, Kapoor tulsi	Flower colours Purple	Bloom time September to March	Height Up to 3 feet	Difficulty Easy to grow
---	--------------------------	----------------------------------	------------------------	----------------------------

Planting and care

It is found growing naturally in moist soil nearly all over the globe. Kapoor is the best Holy Basil for temperate gardens. Acts like an annual, and is even known to self-seed in a temperate climate, which is quite unusual for basil.

Sunlight Full sun, it can tolerate partial shade (At least 4 hours of sunlight per day)	Soil Loamy and fertile soil with good drainage soil	Water Medium	Temperature 18 to 30 degrees C	Fertilizer Use any organic fertilizer. Apply balanced liquid fertilizer once in every couple of weeks.
--	--	-----------------	-----------------------------------	---

Caring for Kapoor Tulsi

- Do not water regularly during rain.
- Reduce watering in the winter to prevent diseases.
- Remove the faded, wilted or discolored leaves to encourage the growth of new foliage.

- Regular removal of old leaves and flower buds keep the plant healthy.

Harvesting

Harvest some Holy Basil leaves when the leaves become plentiful.

Typical uses of Kapoor Tulsi

Special features: Tulsi has antioxidant, antibacterial, antiviral, immune-stimulating and adaptogenic (stress removal) properties. It supports the body's natural defenses against germs, stress and disorders of various kinds.

Culinary use: Leaf

Ornamental use: Few gardeners prefer medicinal plants for fence. Holy basil also grows well in containers on a patio or in pots in a sunny window.

Medicinal use: Yes
