

Lucky Bamboo Golden Ring Arrangement - Plant

Lucky bamboo plants make perfect gifts for any occasion and can symbolize ingredients to a happy life. The meaning of lucky bamboo varies depending on the number of stalks, but the basic symbolism stands for Wealth, Happiness and Longevity. The three symbols of lucky bamboo make it a perfect present for weddings, housewarming gifts, new job promotion and even birthdays.

Lucky Bamboo Golden Ring Arrangement Plant

Description for Lucky Bamboo Golden Ring Arrangement

Plant height: 9 - 15 inches

Plant spread: 4 - 6 inches

Bamboo can be grown in water pot or soil pot. Spiral sticks are made after training lucky bamboo stick to grow in curls or decorating lucky bamboo containers. Nodes and internodes are present on the stem, leaves arise from the nodal region.

Lucky bamboo plants are extremely easy to take care of and require very little maintenance, making them a perfect gift for a grandmother on Mother's Day, or a grandfather on Father's Day.

Common name(s): Lucky Bamboo, Sander's dracaena, Ribbon dracaena, Curly bamboo, Chinese water bamboo, Friendship bamboo, Goddess of Mercy plant, Belgian evergreen, Ribbon plant.

Flower colours: Not defined

Bloom time: Rare indoor flowering

Max reachable height: Varies

Difficulty to grow: Easy to grow

Planting and care

It can be planted in soil as well as in the water. It's probably easiest and a little cleaner to grow in water and stones, though it can also grow in soil. Ultimately, it's up to you and will likely be determined by the pot or vase you have available.

Sunlight: Plenty of indirect sunlight

Soil: Well-drained, rich potting soil is best.

Water: Medium

Temperature: 20 to 30 degrees C

Fertilizer: Apply liquid fertilizer

Caring for Lucky Bamboo Golden Ring Arrangement

- As for what water to use, this plant is very sensitive to chemicals like fluoride and chlorine – only use tap water if it's been sitting out for 24 hours (so the chemicals can evaporate).
- Otherwise, bottled water is best.
- Once the plant has grown roots, the roots must be kept covered with water.
- Add a mild solution to the water such as African Violet fertilizer. Since growth can be controlled by feeding, small amounts of fertilizer will keep the plant at a manageable size.
- Keep water fresh by changing it 3 times in a week, and always keep water levels just above the roots.

Harvesting

NA
