Description

Description for Mandevilla (Pink)

The Mandevilla plant has become a common patio plant, and rightfully so. The brilliant Mandevilla flowers add a tropical flair to any landscape.

The mandevilla plant is often thought of as an annual but, in fact, it is very frost tender perennial. Once temperatures go below 50 F. (10 C.), you can bring your Mandevilla plant indoors for the winter.

Common name Mandevilla (Pink),white dipladenia	Flower colours Red pink	Bloom time Seasonal bloomer	Height 3 to 9 feet	Difficulty Easy to grow
--	----------------------------	--------------------------------	-----------------------	----------------------------

Planting and care

Once indoors, place your mandevilla vine in a place where it will get bright, indirect light. Water the plant when the soil is dry to the touch. In the spring, when the temperatures are consistently above 50 F. (10 C.), remove any dead leaves and move your mandevilla plant back outside to enjoy for another summer.

Sunlight Full sun to part shade	Soil Well-drained soil	Water Medium	Temperature 60 to 65 Å°F	Fertilizer Apply any organic fertilizer
------------------------------------	---------------------------	-----------------	-----------------------------	--

Caring for Mandevilla

- Place your mandevilla vine in a place where it will get bright, indirect light.
- Water the plant when the soil is dry to the touch.
- In the spring, when the temperatures are consistently above 50 F. (10 C.), remove any dead leaves and move your mandevilla plant back outside to enjoy for another summer.

Typical uses of Mandevilla

Special features: In Zones 8-10, this is an outstanding vine for trellises, arbors, pergolas, fences or poles. In St. Louis, it is an outstanding container plant or greenhouse plant that can also be grown as an annual.

Ornamental use: The plant is used for ornamental purpose. Its generally kep indoor in living room and in terrac area.
