Michelia Champa, Son Champa (Orange, Grown Through Seed) Plant

Description for Michelia Champa, Son Champa (Orange, Grown Through Seed)

Plant height: 20 - 30 inches

Plant spread: 4 - 8 inches

Magnolia champaca, known in English as champak, is a large evergreen tree in the Magnoliaceae family. Michelia Champaca is a synonym of Magnolia champaca. It known for its fragrant flowers, and its timber used in woodworking. Twigs are ascending and forming a narrow umbelliform crown. Flowers are fragrant, tepals 15-20, yellow to orange, inverted-lance-shaped.

Common name(s): Ramdhan Champa, Golden champak, Mickey Mouse Plant, Champa, Son-chafa

Flower colours: Orange

Bloom time: June-July

Max reachable height: 15 to 25 feet

Difficulty to grow: Easy to grow

Planting and care

Harvest seeds from the ripened fruit of an existing Michelia champaca tree. Thoroughly wash the seeds. Lightly rub the surface of each seed with sandpaper. Remove the seeds from the water and treat them with a plant fungicide. Place one 4-inch pot on a tray for each seed.

Sunlight: Full sun

Soil: Well-drained soil

Water: Water slowly and deeply

Temperature: 25 to 38 degrees C

Fertilizer: Apply any organic fertilizer, White champaca is a moderately heavy feeder and requires consistent levels of nutrients during the active growing season. The type of fertilizer and application frequency depends on the age of the tree and its growing conditions.

Caring for Michelia Champa

- Prune trees to remove wayward, broken, dead, or diseased branches and limbs, or for safety around utility lines.
- Use pruning saws and moderate work, and a chainsaw for heavy work.
- As always take all safety precautions when using power equipment, or when you have to get off the ground for pruning.

Harvesting

NA

Typical uses of Michelia Champa

Special features: Tropical specimen for frost free areas. Effective near decks and patios or the front porch. For areas South of USDA Zone 10, it must be grown in containers which are overwintered indoors. Widely grown in greenhouses.

Culinary use: NA

Ornamental use: The plant is used for an ornamental purpose.

Medicinal use: NA
