

Money Plant Golden - Plant

It is very unusual for leaves in a plant to attract the same amount of admiration as do the blossoms, due to their seemingly monochromatic appearance. Pothos, widely known as "money plant"™, however, arrests the onlooker's™ attention solely by its leaves's™ bright, big, curvy.

Description

Description for Money Plant Golden

The Money plant is a grower's™ choice for both indoor and outdoor in larger pots or hangover. Money plant can grow without much assistance and care. It is believed that money plant brings good luck, prosperity, happiness and wealth.

Common name	Flower colours	Bloom time	Height	Difficulty
Money Plant	-	-	-	Very easy

Planting and care

You can plant it anytime and in any season with great ease.

You just have to cut a stem from parent plant and plant it where ever you want.

You can plant it anywhere whether in soil or in water.

You can plant it in your garden as well as in your house.

The best part about this plant is that you can plant it just by cutting a part of already grown money plant.

Just cut the stem of already grown money plant and plant it in soil.

Cut the fresh stem from the growth tip. If you are planting it in soil then make a hole in soil and plant it.

If you are planting it as indoor plant in a glass jar or bottle and you want to plant it in water then fill the bottle more than half and plant it.

Sunlight

Soil

Water

Temperature

Fertilizer

Partial sun

Sandy soil, Loamy soil

Keep soil moist throughout
the growing season

24 to 35 degrees C

Use any organic fertilizer.
Always add fertilizers in
shade or in evening. Never
add them in sunlight, as it
can burn leaves.

Caring for Money Plant Golden

- If you plant it in a pot then ensure that pot should have proper drainage system otherwise roots of money plants will be damaged by excessive water.
- Wooden or plastic pole warp with husk is suitable for climbing the plant up and foster faster growth.
- Tie the stems as it grows up, till it reaches the top progressively.
- You can also use coir ropes to wrap around plastic or glass poles which will give enough support for the plant to grow up.
- Trim by cutting away dead or overgrown branches or stems of the money plant.
