Planting and care

Choose a warm, sheltered location when growing. The vining varieties require a support structure as some can get 15 feet tall. All plants prefer sun to light shade sites with well-draining and moderately fertile soil. Install the plant in the ground at the same level it was growing in the nursery pot.

Sunlight: Full sun to part shade

Soil: well-drained soil

Water: Medium

Temperature: 18Â°c night, 24Â°c day

Fertilizer: Apply any organic fertilizer

Caring for Monstera Obliqua

plant care is not difficult but does require vigilance. The vines need to be trained early when they are young. You may use plant ties or just weave them through trellis sections. Fertilize the plant in spring just before new growth appears. Pinch off the tips of the vines in the

second year to promote branching which will fill the trellis with bushy growth.

Typical uses of Monstera Obliqua

Special features: Annual vine for covering walls, trellises or fences. Good annual privacy vine for porches. Effective ground cover. Containers. Vegetable gardens.

Ornamental use: The plant is used for ornamental purpose. Its generally kep indoor in living room and in terrac area.
