Description

### Description for France Beans Hybrid Selection, French Beans

Foliage grows well in shade, but plants need good sun for best flowering.  
It blooms on new growth, so early spring pruning will not affect the flowering.  
Vines must be grown on sturdy structures because mature plants produce considerable weight.

Common name	Flower colours	Bloom time	Height	Difficulty
Egyptian kidney bean, Indian bean	Oange, red	July to August	12.00 to 15.00 feet	easy to grow

### Planting and care

Plant where they will receive a minimum of 5 to 6 hours of full sun per day.  
Plants grown in weak sun may not die at once, but they weaken gradually.  
Give them plenty of organic matter when planting and don't crowd them. Wear sturdy gloves to protect your hands from prickly thorns.

Sunlight	Soil	Water	Temperature	Fertilizer
Full sun to part shade	well-drained soil	Medium	40 Å°C to 60 Å°C	Apply any organic fertilizer (Vermicompost, Stear Meal,Neem Cake )

### Caring for France Beans Hybrid Selection

Feed plants on a regular basis before and throughout the blooming cycle (avoid chemical fertilizers and pesticides if you're harvesting for the kitchen).

- Once a month between April and July, apply a balanced granular fertilizer (5-10-5 or 5-10-10).
- Allow ¼ to 1 cup for each bush, and sprinkle it around the drip line, not against the stem.

## Harvesting

10 days

## Typical uses of France Beans Hybrid Selection

### Special features:

Woodland gardens, naturalized areas.

Provides quick cover for fences, arbors, trellises, walls or other structures in the landscape.

Also may be grown along the ground to camouflage rock piles or old tree stumps.

Good vine for hot, dry sites. Needs lots of room. Excellent for hummingbird gardens.

### Medicinal use:

Bean pods are effective in lowering blood sugar levels and can be used (with the concurrence of a doctor) for mild cases of diabetes.

A bean pod diet for this purpose would mean eating 9-16 lb. of pods per week (they can be cooked like vegetables).

Dried pods are particularly to be used in conjunction or rotation with other efficacious herbs
