Description

### Description for Petunia Ultra Star

The popular flower of the same name derived its epithet from the French, which took the word petun, meaning tobacco, from a Tupiá€"Guarani language.

An annual, most of the varieties seen in gardens are hybrids. Petunias are one of the most popular bedding flowers.

**Common name(s):** -

**Flower colours:** The plant carry red, pink, yellow, purple and white

**Bloom time:** Spring, Summer, Fall

**Max reachable height:** 4 inch

**Difficulty to grow::** Easy to grow

## Planting and care

Petunias do best in full sun, but can handle partial shade, especially in hotter areas.

**Sunlight:** Most varieties prefer full sun

**Soil:** They need well-draining, slightly moist soil.

**Water:** Water them regularly

**Temperature:** The warm area and let them grow on in cooler temperatures

**Fertilizer:** Fertilize your plants monthly to ensure good growth. Double-flowered cultivars like a biweekly dose of fertilizer.

## Caring for Petunia Ultra Star

Petunias grow best in full sun, although they will tolerate dappled shade, especially in hot conditions. They need well-draining, slightly moist soil. In soggy soils, they become leggy. Regular deadheading also improves their appearance. An early and midsummer application of high-phosphorus fertilizer improves both blooms and vigor.

## Typical uses of Petunia Ultra Star

**Special features:** Attracts Birds, Fragrance, Good for Containers, Low Maintenance

**Ornamental use:** It is generally kept indoor and in terrace area
