Description

### Description for Zinnia F1 Elegans Orange

They are warm season annual flowers that bloom with abandon and require only minimal care. It does not matter how hot the summer gets, zinnia plants just keep on blooming.

Common name	Flower colours	Bloom time	Height	Difficulty
Zinnia	Orange	June to frost	18 to 24 inches	Easy

### Planting and care

Zinnia leaves are opposite and usually stalkless (sessile), with a shape ranging from linear to ovate, and pale to middle green in color. The flowers have a range of appearances, from a single row of petals to a dome shape, with the colors white, chartreuse, yellow, orange, red, purple, and lilac. Zinnias seem especially favored by butterflies, and many gardeners add zinnias specifically to attract them.

Sunlight	Soil	Water	Temperature	Fertilizer
Full sun	Rich, well-drained soil	Keep the soil moist, but not soggy, for young plants. Mature zinnias require less watering, as grown flowers are somewhat drought tolerant.	25 to 40 degrees C	Use any organic fertilizer

### Caring for Zinnia F1 Elegans Orange

Zinnia care may also include watering in the early morning, which allows the foliage and flowers ample time to dry off before nightfall.

## Typical uses of Zinnia F1 Elegans Orange

**Special features:** Their easy culture, heat tolerance and colorful mid to late summer show, blooming hard when other annuals are spent, make them well worth exploring.

**Ornamental use:** Use in an annual or mixed border. Smaller zinnias are suitable for edging, window boxes or other containers. The narrow-leaf zinnia also works well in hanging baskets. Zinnias are very popular for cut flowers.
