Description

Description for Ornamental Red Small Corn Ziermais Erdbeermaise

Ornamental Red Small Corn is small in size, averaging ten centimeters in length, and is oblong and cylindrical in shape. The cob is encased in a

papery, multi-layered, semi-rough husk that can range in color from ivory to purple. When peeled and dried, the husks become stiff and can retain its shape for decorations.

Common name(s): Mini Ornamental Corn

Flower colours: Yellow

Bloom time: Summer

Max reachable height: Up to 1.5 m

Difficulty to grow:: Easy to grow

Planting and care

Sow seeds outdoors in late spring or early summer. For an earlier start in spring, sow the seeds indoors or on a sunny windowsill. Place the seeds on top of the soil. Water the seeds with the sprayer.

Sunlight: Full sunlight

Soil: Well-drained soil

Water: Moderately

Temperature: 25 to 30 degree C

Fertilizer: Apply any organic fertilizer.

Caring for Ornamental Red Small Corn Ziermais Erdbeermaise

- Water a plant when the soil feels dry to touch. Water thoroughly in the summer and reduce watering for the winter & rainy season.
- Try to water the plants in the morning around 8-10am.
- You should remove dead, infected or damaged plant parts and throw in the garbage collector.
- Fertilize a plant mostly in the spring season.

Typical uses of Ornamental Red Small Corn Ziermais Erdbeermaise

Special features: Attractive corn color
