Description

Description for Osteospermum Dimorphotheca Mixed

The flowers are prominent, 2 to 3 inches in diameter with dark-blue centers and an almost waxy appearance. Plants need good drainage and don't do well in high humidity.

Common name	Flower colours	Bloom time	Height	Difficulty
African Daisy, Cape Marigold	yellow, blue, violet, white, pink	Mid-summer, late summer, early fall, mid-fall	8 and 12 inches tall	Medium

Planting and care

Sow seeds of Passion Mixed from February to May at 18-20c (64-68F) on a good free draining damp seed compost.

A fine sprinkling of vermiculite must be applied, but do not cover the seed completely.

Place in a propagator or seal the container inside a polythene bag until after germination (up to 14 days). Do not exclude light, as this helps germination.

When the seedlings are large enough to handle, transplant them into 7.5cm (3 inch) pots.

Then grow on in cooler conditions before planting out after all risk of frost has past. Plant 30cm (12 inches) apart.

Sunlight	Soil	Water	Temperature	Fertilizer
Full Sun	Requires well-drained soil	Keep soil moist	60 F to 65 F	Apply any organic fertilizer.

Caring for Osteospermum Dimorphotheca Mixed

- Remove old and spent leaves to prevent fungus infections.
- When re-potting see that the crown of the plant is above the level of the soil.
- Generally, African Daisies do not need insecticides or fungicides. If a problem arises treat them with an insecticidal soap and /or

fungicide.

- Mulching is done around but not on top of the plants with 3 inches of organic compost.
- Water the African Daisy wild flowers well weekly until soil is completely moist.

Harvesting

Most Osteospermum varieties are hybrids and will not grow true from saved seed.

Typical uses of Osteospermum Dimorphotheca Mixed

Special features: Osteospermum tolerates a wide range of soil types and occupies areas with 500 to 1500 mm annual rainfall.

Ornamental use: The plant is used for ornamental purpose.

Medicinal use: Is edible but no Culinary uses nutritional value.
